

DRIVING THE ENERGY TRANSITION

22-24 MARZO
2023

RIMINI EXPO CENTRE
ITALY

workshop

MARCH 23RD | 11.30 – 13.15
SALA NERI HALL SUD

Agrivoltaics: worldwide state of art, international experiences and discussion

The workshop will showcase the international landscape of agrivoltaics, with focus on common and specific challenges, with regard to the innovation in agriculture, and the potential to ambitious energy targets. Ongoing and implemented projects will be presented by trade associations and companies operating in the field of agrivoltaics.

Introduction

Alessandra Scognamiglio | ENEA | President AIAS

Chair

Sergio Matalucci | PV Magazine

Agrivoltaics technology state of art: experiences

Sasha Krauser | Next2Sun | DE

Ronald Knoche | France Agrivoltaisme | FR

Ryuzo Takasaki | Notus Solar | JP

Challenges and potential

Raffaele Citarella | RWE | DE

Emilien Simonot | GALP | PT

Enrico Lamanna | Huawei | CN
